GROWERS AND SHIPPERS
FISHERS, ONTARIO COUNTY, N. Y.

CHOICE SEED POTATOES are always scarce, and poor seed a guarantee of a crop failure before it is planted. We do no expensive advertising for which our customers have to pay. One fair profit added to growing and storing costs makes possible these prices on our high quality seed. Quotations are for Immediate Cash Order and Spring Shipment on board cars here, and subject to our confirmation. Our Seed Potatoes are packed in heavy sacks, giving added protection in handling and in transit. No shipments later than May 20th.

SPRING PRICE LIST--1934

Northern Grown Pure Strain Brand Seed Potatoes

We list below the best and most popular varieties now in cultivation. This seed is not certified, but is produced from the most disease-free strains of certified seed, making it much more vigorous and healthy than ordinary seed and often the equal of certified seed.

Our Second Size—Preferred by many for planting whole or cutting once—are U. S. grade No. 2, or sized between $1\frac{1}{2}$ and $1\frac{7}{8}$ inches and sorted equal to first size. A good, even stand is secured by planting seconds whole, when often either excessive wet or dry soil conditions at planting time will cause cut seed to rot. Also less seed is required per acre.

Single bushels, \$2.50; half bushel, \$1.50; peck, \$1.00, any variety
